Dylan Evans

Speaker, writer, and CEO of Simple Salt

High-energy seminars on the easiest and most effective ways to stop internet crime from damaging and ending businesses.

Dylan is a security maverick. In an industry obsessed with avoiding blame, sounding smart, and playing with the latest tech, he explains the simple, effective ways that businesses can prevent internet crime through changes to the way they do risky activities.

Are you tired of the same old security presentations?

LEARN:

• Modern and practical techniques

• Common misconceptions

• Top crime trends

GUARANTEED:

• No fearmongering

• No nerds required

• No nonsense
